

A photograph of a DM1 1A 125VAC circuit breaker component. The component consists of a black plastic base with a silver-colored metal lever attached to the top. The base has three mounting tabs at the bottom, labeled 'G', 'NG', and 'NG' from left to right. The text 'DM1 1A 125VAC' is printed on the black plastic base. The component is shown against a plain white background.
